

“CCI crafted a custom solution for our situation and our volume. Since then, the newfound predictability with scheduling has led to a significant increase in revenue.”

A Remarkable Anesthesia Provider Turnaround.

- 3 New Chief Positions Hired
- 85% Anesthesia Provider Retention
- Improved the PAT clinic
- Improved operational efficiency, and turnover times

Challenges and Results

Union Hospital struggled to retain and recruit anesthesia providers, so they sought CCI Anesthesia’s assistance. CCI quickly gained providers’ trust, retained 85% of the team, boosted morale, and appointed new leaders from within. They collaborated with Surgical Directions for a thorough assessment, enhancing the PAT clinic and operational efficiency. Now, Union Hospital has a stable anesthesia team, expands services, and adds surgeons, with CCI as a committed growth partner.

Hospital Name:

Union Hospital
Terre Haute, IN

Surgical & Cardiac Cases:

27,000

Challenge:

Poor provider retention and recruiting.

CCI Solution:

Gain provider trust, boost morale and appointed new leaders from within.

Result:

Union Hospital has a stable provider team and continually adds surgeons and expands services, with CCI as their growth partner.
